Advantages of 3D-Printed Trophies

- **Limitless Customization**

We offer exclusive designs that reflect the identity of each event, allowing manufacturers and distributors to stand out with unique products.

- **Fast Production**

3D printing shortens lead times, making it ideal for urgent orders.

- **Color Variety**

Matte, glossy, glitter, stone-effect colors — with finishes tailored to every need.

- **Sustainability and Savings**

Less material waste and more efficient production result in competitive costs and more eco-friendly practices. We use plastics of natural origin.

About Triditive

TRIDITIVE is a leader in the manufacturing of automated industrial machinery for additive manufacturing. We have patented AMCELL Flex®, the first hybrid and automated additive manufacturing (AM) ecosystem specifically designed for the serial production of metal and polymer parts. Integrated with our proprietary software EVAM®, which enables remote control and full optimization of the production process, AMCELL Flex® helps manufacturers shorten their supply chains, digitize inventories, and deliver fast, efficient solutions to their customers — revolutionizing the approach to industrial production.
